INTENSE COLD AT THE FRONT.

General Cannon Moves Headquarters to Castle Gate Prior to Firing Of Coke Ovens.

Early morning advices from the various coal camps of the Utah Fuel company are to the effect that all is quiet. The weather, however, is intensely cold, last night being the coldest of the season at Scofield and Clear Creek. Under these circumstances the members of the national guard who two weeks ago were working in steam heated offices and stores are sighing for the comforts of city life.

According to all accounts, the striking coal miners who have had eviction notices served on them, do not seem to lay much stress on the situation, and have no care for the morrow. They appear to live for the day only, utterly heedless of what may come.

DIVISION TERMINAL. New One to be Constructed in Connec-GOES TO SANTA FE

The Southern Pacific company will

tion With Lucin Cut-off.

The Southern Pacific company will at once begin the construction of a new freight division terminal between Akbar and Montello to be used in connection with the Lucin cut-off, says the Utah State Journal. This terminal will take the place of Terrace, which means that the latter place, so far as the railroad is concerned will be virtually wiped off the map.

The contract for the grading work has been let to Corey Bros.' Construction company and will aggregate 140,000 cubic yards of fill. The terminal will be a first-class, modern yard, up to date in every particular, and will be completed with all possible haste. The distance from Ogden to the new terminal via the Lake route will be 120 minal via the Lake route will be 120

It has repeatedly been stated that the rails and ties on the old road would be removed as soon as practicable. Such statements are without the slightest foundation in fact. The old road will remain undisturbed and nothing will be removed.

COMFORTABLE HOMES

Can Be Built in California Cheaper and Easier than Elsewhere,

There is no part of the world better adapted by all that nature can do for omfortable rural homes than Culi-It is sometimes said that to live in

California one must be wealthy. On the contrary, there is no other place where a family of moderate means can where a family of moderate means can make a living more easily, or where they can enjoy one-half the luxuries that are within their reach in California. It certainly is not wise for a family to land there with nothing ahead. One who has not been thrifty enough to accumulate a little in other places would hardly sucreed there. But little capital, however, is required. A small tract of land, ten or twenty acres, is ample; a few acres in vineyard and a few in orchard, both carefully selected in regard to varieties, and in from three to five years there is assured an annual income of \$1,500 to \$2,000. The work should, and can, be done all within the family, and this be done all within the family, and this income will therefore be nearly all net. expensive buildings are not necessary, is the weather is always mild, life in the open air being entirely agreeable for ten months of the year.

During the time the orchard is com-

ing into bearing, enough can be raised between the trees to furnish a family between the trees to furnish a family with subsistence, and as there is no fruit crop to harvest on the home place, there is time, as there is always opportunity, for those who choose, to find pleasant and remunerative labor upon places already in bearing, and this may add materially to the income. FOR EXPULSION OF SENATOR SMOOT

Union of Women's Clubs, Headquarters in Washington, Formed For That Purpose.

COMMITTEE SEES PRESIDENT.

Dr. McMillan Says They Want Him Expelled Because He is an Apostle And Not Because He is a Mormon.

Washington, Dec. 3 .- A union of wonen's clubs with headquarters in Washington was formed here today to fight for the expulsion of Senator Reed Smoot of Utah from the United States senate. The formation of the union was the result of a conference called by Mrs. Frederick Schoff of Philadelphia, president of the National Congress of Mothers. Half a dozen other national organizations were represented at the meeting. Mrs. Lucia Blunt was elected president of the local union whose name is to be the Union of Women's clubs. Mrs. Hamlin of Washington, D. C., will act as secretarytreasurer. A call will be sent out to raise \$3,000 for the purpose of employ-

raise \$3,000 for the purpose of employing an attorney to assist in the fight, and a pamphlet will be issued.

A committee from the meeting called on the president. They included Mrs. Schoff, Mrs. Darwin Jones, president of the Inter-Dominitional Council of Women; Mrs. Tunis Hamlin, vice president of the Women's Home Missionary society of the Presbyterian church. Mrs. Margaret Diehl, national superintendent of legislation of church. Mrs. Margaret Dien, national superintendent of legislation of the W. C. T. U.; Mrs. Vandergrift, of Wilmington, Del.; Mrs. Clement of Philadelphia, president of the women's club of that city; Mrs. Dubois of Idabo: Mrs. Price of Westchester, Pa., and Mrs. Howard W. Lippincott of Philadelphia

Following the meeting for the organization of the union there was a conference at the church at which Mrs. J. P. Mumford of Philadelphia, presided, during the absence of Mrs. Schoff. Addresses were made by Dr. J. D. McMillian of New York, Dr. Sarah Elliott, Mrs. Darwin R. Jones, Mrs. Margaret Diehl and Mrs. Tunis Hamlin. Dr. McMillian said that Senator Smoot's expulsion was not desired because he was a "Mormon," but because he was an apostle in the "Mormon" church and had taken yows and oaths which conflicted with those of the United States. Mrs. Hamlin said the objection to the retention of his seat by Senator Smoot was the union of church Following the meeting for the organsenator Smoot was the union of church and state. The presence of the private secretary to Senator Smoot and the secretary's wife at the meeting caused some comment. They left before the meeting had concluded.

RECKLESS DRIVERS BEWARE.

Chief Burbidge of the police depart ment has issued orders to the officers to enforce the ordinance relative to fast driving over crossings. In the past this ordinance has been enforced for probably three or four weeks in the year but Burbidge says he proposes to put a stop to reckless driving from now and that the law will be rigidly forced the year round. Almost daily there are complaints of persons injured by careless drivers dashing madly across the intersections of the streets. The police will also keep a sharp look-out for messenger boys who delight in seeing how close they can come to persons on the street.
